CHAIRMAN'S MESSAGE

Dear Valued Stakeholder's

It gives me immense pleasure to share my view with our valued stakeholders and present Annual Report for the financial year 2023-24. This has been a transformative year for our company, marked by significant strategic initiatives as your company forayed into waste plastic recycling business which would be game changer for the company in the coming years. In line with this, your company had in principally decided to merge with Shiva Textfab Ltd., subject to approval of relevant authorities.

Your company has also decided to acquire approx. 21.46% equity stake in Shiva Textfabs Ltd. The purpose of this investment is to fund ongoing expansion in Shiva Textfabs pending the merger of these two entities. Shiva Textfab has one of largest integrated plastic recycling plant with the capacity to recycle 8.8 Million Plastic Bottles each day. Shiva Textfabs have consistently demonstrated unwavering commitment to sustainability, positioning itself as a trailblazer in PET waste recycling. Based in Ludhiana, Punjab, with sprawling 100-acre state-of-the-art facility proudly stands as India's preeminent integrated manufacturing unit for rPET waste recycling. Over our **illustrious 26-year journey**, have not only achieved the impressive feat of reducing global CO2 emissions by more than 1,40,000 metric tons annually, but have also become synonymous with cutting-edge environmental solutions with a diverse product range for Pet Flakes, Fibre, Spun Yarn, filament yarn and rPET Upcycled fabric Anaura.

The circular economy is emerging as one of the largest economic opportunities; it offers a USD 10 Trillion global opportunity in reducing waste, stimulating innovation and creating employment. It promotes clean technologies, creates jobs in sustainable industries, and positions businesses and economies at the forefront of a globally transitioning market.

There is a growing demand for sustainable products in India and globally as they help lower carbon footprint, reduce plastic waste, decrease reliance on virgin materials, conserve valuable resources, and support a circular economy by recycling and reusing waste plastic materials. The foray into this new business and the planned acquisition and merger will help the company in completely transforming itself and in creating long-term value for all stakeholders with opportunities for business growth.

Growth Road Ahead :

- **Setting Up New Capacities:** Setting up new capacities for Fibre, Filament, B2B (Bottle to Bottle Chips) and Acoustic Panels
- **Achieving 100% Capacity Utilization:** Targeting to achieve 100% utilization of expanded capacity (including new capacities) by FY 2027
- **Margin Goals:** Expected EBITDA margins between 16% and 17% at full capacity.
- **Focus on Value-Added Products:** Emphasizing high-margin product lines like Anaura, Non Wovens, B2B, and Acoustic Panels
- **Revenue Potential:** Projected top line potential of INR 1,700 crore at 100% expanded capacity utilization.
- **Next Expansion** Next phase of expansion for capacity enhancement of Anaura and Non woven to fully forward integrate the surplus fibre capacity (to be planned post optimum utilization of present expanded capacities)

Leadership

We are strengthening our leadership team to enhance corporate resilience and drive expanded capacity. We are pleased to announce the appointment of:

- **Mr. V.K. Goyal as Executive Director/Chief Executive Officer (CEO):**

He is an Innovative marketer and a business leader known for his exceptional talent development, crisis management, operational excellence, and financial acumen. His strategic vision, effective decision-making, and ability to build strong client relationships are key assets that he brings here in Rudra. Mr. Goyal was earlier associated with Trident Yarn, as Business Head and CEO, as an Executive Director, SEL Manufacturing Co(14 years), also as a CEO of Vardhman Textiles (30 years).

- **Ms. Ishani Bansal - Director- Marketing**

Mrs. Ishani Bansal has more than 1 year experience in the field of marketing. She has worked as management trainee in marketing department of Shiva Textfabs Limited. She has done degree in English Honours. Expertise in brand development, digital marketing, market research, and strategic planning. Proven ability to increase revenue, build brand awareness, and implement innovative marketing solutions.

We participated in three major events including Bharat TEX, AYCS, and GCPRS along with Shiva Textfabs Ltd. getting a phenomenal response for our products. We plan to participate in more national as well as international events and exhibitions, establishing Rudra Ecovation as the industry leader and building visibility for our range of products.

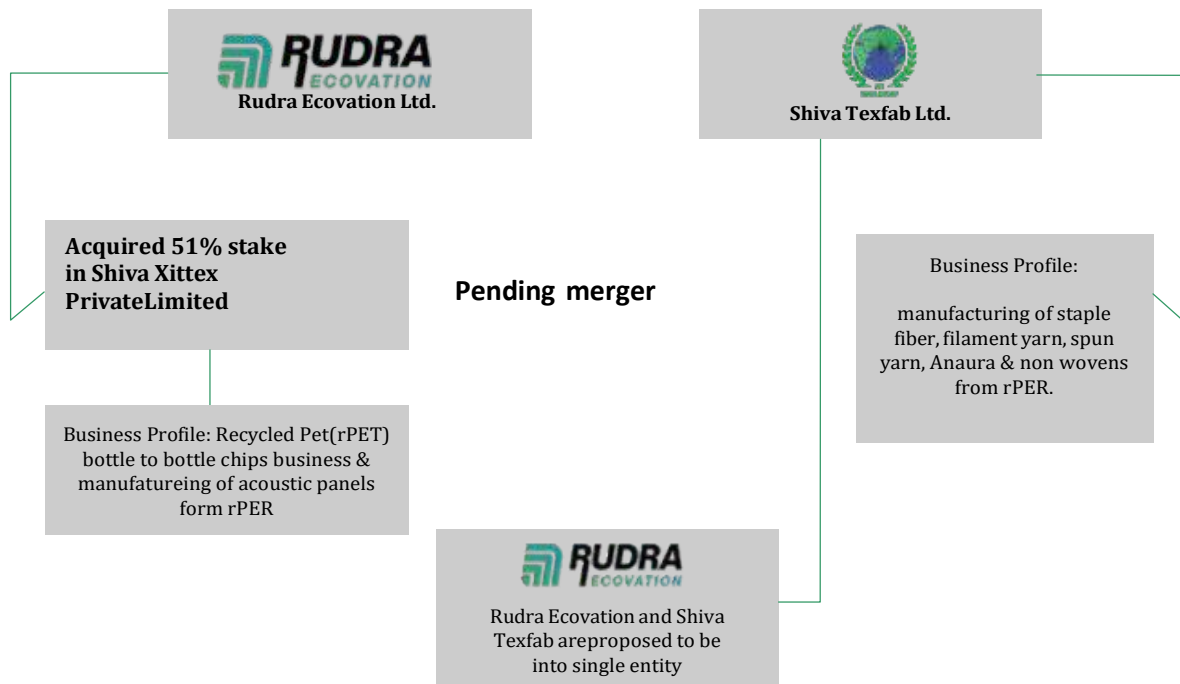

As always, thank you for your support.

xxvii) **THE INTRUCTIONS OF SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:**

Step 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2: Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

i) The voting period begins on **27.09.2024 at 09:00 a.m. and ends on 29.09.2024 at 05:00 pm**. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of Monday, **23.09.2024** may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.

iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015; listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

ANNEXURE-6

MANAGEMENT DISCUSSION & ANALYSIS REPORT

The Management discussion and Analysis Report is a reflection of the current state of business of the company. It also deals with opportunities and challenges faced by Company and future outlook.

Outlook

Global growth is estimated to remain stable at 3.2% throughout CY 2024 and CY 2025.2 Global inflation is receding at a faster pace than anticipated. It declined from 8.7% in CY 2022 to 6.8% in CY 2023 and is expected to further decline to 5.9% in CY 2024, according to IMF. However, geopolitical risks remain high, particularly in light of the continuing conflict in the Middle East and political tensions in Europe. Going forward, declining inflation and greater government spending is anticipated to alleviate fiscal pressures and expected to attract investments for future growth in the coming years.

Global economic overview

The global economy expanded by 3.2% in the CY 2023, demonstrating remarkable resilience in the face of continuing economic adversities like geopolitical challenges, demand slowdown and fluctuations in commodity prices which has led to inflationary pressures in both advanced and emerging markets.1 The global Manufacturing PMI has been under contraction in CY2023 but has indicated stabilisation towards the start of CY2024. Additionally, commodity prices have remained relatively stable in CY2023 despite the ongoing economic slowdown in China & Europe and geo-political challenges in Europe and the Middle East. Owing to the rising interest of foreign institution investor, several emerging economies like India, Vietnam and Mexico are expected to show a positive growth trajectory.

Indian economic overview

India's economy is one of the fastest-growing major economies in the world. In FY 2024, India registered a GDP growth rate of 8.2%. This growth was accompanied by a fall in the inflation rate and improved disposable income which resulted in increased private consumption and sustained demand for goods and services in the country. The Reserve Bank of India's (RBI) proactive monetary policies contributed to strengthening the financial landscape of the country.

The capital expenditure push, particularly on roads and railroads, has favored in maintaining the economic growth rate. For the year under review, the FDI in India remained resilient and amounted to USD 71.0 billion.⁴

The Government of India also allocated 3.3% of GDP to infrastructure development and supported the economy by creating employment opportunities.

The manufacturing sector grew by 9.9% in FY 2024 owing to the favourable demand conditions in the economy. Notably, there has been greater capacity utilization across the manufacturing sector, which has further fuelled economic growth.

Outlook

The Indian economy is expected to continue its upward trend and become the third-largest economy by 2027. According to the Organisation for Economic Co-operation and Development (OECD), the GDP is expected to grow by 6.6% in FY 2024-

25. Inflation is expected to further fall and this will support the increased level of consumption of goods and services and contribute to increased activity in the economy.

With the support of various industry-promoting programmes like the Production-Linked Incentive (PLI) scheme and the government's 'Make in India' initiative, the manufacturing sector can potentially expand into a USD 1 trillion industry by 2025–2026. This strategic move is expected to help the growth of the manufacturing sector and thereby contribute to economic growth in the coming years.

INDUSTRY OVERVIEW

Global Textile Market

The global textile industry attained a market size of USD 1,837.27 billion in CY 2023.⁵ The global textile industry witnessed a trend of adopting Artificial Intelligence (AI) in CY 2023, which also helped enhance the industry's productivity. Innovations such as automation and digital printing have significantly transformed the global market by enhancing the productive efficiency of the industries and meeting the dynamic market demands in the reported year. The Global textile industry is recovering, with inventory levels of international retailers and brands back to pre-pandemic norms. Despite this, the industry remains cautious about demand as textile companies await an increase in order book momentum. The growth in this industry was significantly contributed by the growth in the Asia Pacific markets for the year under review. The European markets are also expected to experience significant growth in the future. The consumers increasing environment-consciousness is moving the industry towards manufacture of

sustainable products. Further the buyers' thrust to diversify their supply chain beyond China to avoid over-reliance on a single country is a driver for India to come up as a value chain partner owing to our raw material strength and robust manpower pool. Anticipated Free Trade Agreement (FTA) include the long overdue UK FTA and EU FTA, along with negotiations between India and the Russia-led five-member Eurasian Economic Union (EaEU) set to commence in 2024. Another FTA between

India and Oman is on the horizon and is likely to be signed in 2024. This will make us competitive in these markets. Rapid Adoption of Digitalization, Block chain, Traceability and increased action towards Sustainability & ESG focus would be an optimal strategy to boost efficiency and maintain competitiveness. ESG is at the core of Strategy for every retailer. They are prioritizing vendors on the basis of ESG score.

Indian Textile Market

India's textile market is one of the world's largest markets. The industry contributed to the Gross Domestic Product (GDP) by 2.3% in FY 2024. It has a 4% share in the global trade of textiles and apparel. This industry remained a significant contributor to the growth of the economy by providing employment opportunities and attracting investments. Some of the most important textile production locations in India are Gujarat, Maharashtra, Tamil Nadu, Punjab, Uttar Pradesh and West Bengal. The domestic market faced several headwinds during the reported year including fluctuation of cotton prices. Even the festive season did not bring enough market demand, and at the same time increasing imports of fabrics from Bangladesh at lower production cost also put pressure in the domestic market. Although India is the largest exporter of textiles and apparel in the global market, the contribution of the industry in trade declined in FY 2024. However, the export statistics indicate that cotton yarn, fabrics and handloom products experienced an increase of 6.71% in their exports.

The Government of India consistently made efforts to support the growth of this industry in the reported year. The Ministry of Textiles approved 18 Research and Development (R&D) projects across key strategic areas including sustainable textiles⁷, providing the industry with significant growth opportunities. This initiative is expected to boost innovation and enhance the industry's operational efficiency. The government signed the Trade and Economic Partnership Agreement (TEPA) with the European Free Trade Association in the reported year. This agreement included integrating advanced technologies to enhance the productivity in the industry and support the industry's growth further.

Business drivers

- **Rising population:** India is the most populous country in the world, followed by China at a close second and the United States of America at the third rank.
- **Urbanisation:** India is urbanising rapidly. By 2036, its towns and cities will be home to 600 million people, or 40% of the population, up from 31% in 2011, with urban areas contributing almost 70% to GDP.
- **Demographic dividend:** With an average age of 28.6 years, India is home to one of the youngest populations in the world, which is largely driving the economy with nearly two-thirds of the people entering the workforce being aged between 18-28 years.
- **Rising consumption:** In 2023, India's consumption rate grew at a faster rate compared to China, USA and Germany. By 2026, the Indian consumption market is expected to become the world's third largest.
- **Shifting supply chains:** A number of global supply chains are shifting their manufacturing base from China to India, owing to favourable regulatory norms and large number of skilled workforce.
- **Internet penetration & E-commerce boom:** With 759 million subscribers in 2023, over 50%. Indians are active internet users. This number is expected to grow to 900 million by 2025. Driven by it, India is expected to become the third largest e-commerce market with a base of 500 million online buyers. Between 2019 and 2026, the number of online shoppers is expected to grow to 88 million, growing at 22% CAGR, in rural India and 263 million, growing at 15% CAGR, in urban India.
- **Digital payments :** The value of transactions conducted on the UPI platform increased significantly from ₹0.07 lakh crore in FY17 to ₹200 lakh crore in FY24.

Global PET Market overview :

During 2017 - 2023, the global PET (Polyethylene terephthalate) market grew at a CAGR of 2.5%, reaching a volume of 80.2 Million Tons in 2023. In terms of sales value, it reached a value of US\$ 96.2 Billion in 2023 growing at a CAGR of 4.4% during 2017- 2023. Looking forward, this market is expected to grow at a CAGR of 5.6% during 2024-2029 reaching a value of US\$ 135.1 Billion by 2029.

Indian PET Market overview:

PET is the most widely used material in the manufacture of rigid packaging containers, especially for packaging applications in food and beverage industries across the nation. Given the widespread use of PET in the Indian market, the government of India is increasingly encouraging the existing market as well as the adoption of recyclable PET. For instance, the Ministry of Environment, Forest, and Climate Change, allowed the use of recycled content in food-contact packaging. Moreover, to expand consumer base and meet their increasing demand, prominent PET producers across the country are increasing focus on the expansion of their production facilities, which is likely to propel the India PET market significantly.

The Indian PET market reached a value of US\$ 3.60 Billion in 2023, growing at a CAGR of 18.0% during 2017-2023. Going forward, the India PET market is expected to reach a value of US\$ 12.18 Billion by 2029, growing at a CAGR of 22.3% during 2024-2029. In terms of volume, the Indian PET market reached a volume of 2,048 Kilo Tons in 2023, growing at a CAGR of 7.9% during 2017- 2023. By 2029, the India PET market is expected to reach a volume of 4,072 Kilo Tons, growing at a CAGR of 12.3% during 2024-2029. This growth is attributed to various factors such as increase in the number of young population, growing awareness around hygiene, rise in urbanisation and disposable incomes. In 2023, bottle represented the largest application for PET in India, accounting for a share of 55.8% of the total market in terms of volume and this share is anticipated to reach 57.5%, by 2029. The increased use of PET resin would lead to generation of more waste which would then get into the waste stream and move towards recycling. PET has witnessed robust growth over last five years increasing usage in various end user industries such as packaging & bottling, automobile, medical packaging, electrical and electronics. The increased demand has been driven by replacement of traditional packaging materials like glass, aluminium, paper, metal and growth in FMCG sector. By 2029, the food and beverage sector is expected to dominate the PET packaging market in India, representing 50.2% of the total market volume.

This sector is expected to be followed by consumer products (21.8%), pharmaceuticals (10.3%) and other applications (17.8%).

(Source: Fortune Business Insights, Straits research, IMARC, Times of India)

PET industry growth drivers in India :

- The growing preference for convenience foods and increase in population contribute to the growth of the PET market in India.
- PET is a preferred replacement for conventional packaging materials due to its flexibility, simplicity, durability and recycling capacity.
- The pharmaceutical, food and beverage industries have switched to PET packaging due to greater demand for the maintenance of higher quality standards and overall health have become more important.
- Major FMCG businesses are gradually replacing virgin plastic with recycled alternatives in their supply chain

KEY INITIATIVES UNDERTAKEN BY THE GOVERNMENT OF INDIA IN FY 2024

PM MITRA Scheme

The government launched the PM Mega Integrated Textile Region and Apparel (PM MITRA) Parks Scheme to build and develop textile infrastructure. The scheme is inspired by the 5F vision: Farm to Fibre to Factory to Fashion to Foreign.

PLI Scheme

The government also launched the Production Linked Incentive (PLI) Scheme for Textiles, with an investment of INR 10,683 crore over the next five years, to promote the production of man-made fibres (MMF) apparel. The MMF are artificially produced fibres and are becoming common among the weavers and spinners in India. The PLI scheme also promotes the production of technical textile products in the country.

Kasturi Cotton Bharat

Kasturi Cotton Bharat programme of the Ministry of Textiles is a first-of-its-kind branding, traceability and certification exercise carried out jointly by the Government of India, Trade Bodies and Industry to promote the cotton produced in India.

National Technical Textile Mission (NTTM)

The GOI launched the National Technical Textiles Mission (NTTM). It promotes the development and export of technical textiles.

SAMARTH

The Government with a view to enhance the skills of the workforce in the textile sector has formulated Samarth Scheme under a broad skilling policy framework with the objective of providing opportunity for sustainable livelihood. The implementation period of the scheme is upto March 2024.

The scheme aims to provide demand driven and placement oriented National Skill Qualification Framework (NSQF) compliant skilling programmes to incentivize and supplement the efforts of the industry in creating jobs in the organised textile sector and related sectors, covering the entire value chain of textiles excluding spinning & weaving and in addition it also provides skilling and skill-upgradation in the traditional textile sectors.

Bharat Tex 2024

BHARAT TEX 2024 is a global textile mega event being organised by a consortium of 11 Textile Export Promotion Councils and supported by the Ministry of Textiles. It is scheduled from February 26-29, 2024 in New Delhi. With a focus on sustainability and resilient supply chains, it promises to be a tapestry of tradition and technology attracting the best and the brightest from the textile world. It will have dedicated pavilions on Sustainability and Recycling, thematic discussions on resilient global supply chains and digitization, interactive fabric testing zones, product demonstrations and master-classes by crafts persons and events involving global brands and international designers. Bharat Tex 2024 will be a unique experience for knowledge, business and networking. The mega event will feature an exhibition spread across nearly 20 lakh sq. ft area showcasing Apparel, Home Furnishings, Floor Coverings, Fibres, Yarns, Threads, Fabrics, Carpets, Silk, Textiles based Handicrafts, Technical Textiles and much more. It will also feature nearly 50 different knowledge sessions providing an excellent platform for knowledge exchange, information dissemination and Government to Government and Business to Business interactions.

Opportunities, Threats, Risks & Concerns

Accelerated reopening of activities have re-opened opportunities for the textile market which were quiet for a long time. Further, China plus one policy by USA and Europe will lead to increase in demand for the Indian Market. With an added advantage of high quality standards and globally renowned accreditations, our Company will be forging ahead with its sustainability vision to build potential so as to grab opportunities coming its way. Currently the biggest threat is the enormous increase in cotton prices leading to high finished goods prices. Consumers are therefore shifting their focus from cotton to man-made fibres. Further, increase in prices of other commodities such as coal, dyes and chemicals are also making the industry non-competitive.

Health & Safety Measures

The Company has health and workplace safety programs in place and has established policies and procedures aimed at ensuring compliance with applicable laws/legislative requirements. The Company believes that the health and safety of the workers and the persons residing in the vicinity of its plants is fundamental to the business. Commitment to the identification and elimination or control of the work place hazards for protection of all is utmost importance.

Human Resources & Industrial Relations

Human resource is considered as the most valuable of all resources available to the Company. The Company recognizes the importance and contribution of its human resources for its growth and development and is committed to the development of its people. The Company has been adopting methods and practices for Human Resources development. With utmost respect to human values, the Company continues to develop its human resources, through appropriate trainings, workshops, motivation/ leadership techniques and employee welfare activities at regular intervals.

The total permanent employee's strength of the Company was 213 as on 31st March, 2024. The industrial relation continued to remain cordial during the year.

Internal Control systems and adequacy

Internal control systems for financial reporting have been put in place by the Company and they are appropriate for its size and sector. These solutions are made to protect company assets while increasing productivity and efficiency at every level of the organisation. The Company has set up strict protocols to guarantee operational support and financial reporting accuracy. Business operations are regularly observed by an internal team and audit committee, which swiftly notifies the Management Board of any anomalies. To guarantee steady and sustainable growth, the Company creates strategies to recognise, evaluate and reduce risks based on these findings. These internal control mechanisms are essential for upholding regulatory compliance, combating fraud and preserving transparency. Ultimately, the Company attracts investment, builds stakeholder confidence and achieves long-term success in the market by offering strong financial reporting and operational support.

INDEPENDENT AUDITOR'S REPORT

**To the Members of
Rudra Ecovation Limited
Formerly Himachal Fibres Limited**

Report on the Audit of the Standalone Ind AS Financial Statements**Opinion**

We have audited the accompanying standalone Ind AS financial statements of **Rudra Ecovation Limited (Formerly Himachal Fibres Limited)** ("the Company"), which comprise the Balance Sheet as at 31 March 2024, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and summary of the significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at 31 March 2024, its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Emphasis of Matter

We draw attention to Note 5 to the standalone financial statements, which describes that the Company has made assessment of the inventories carried during the year under review on the basis its nature and ageing. On the basis of its assessment the company has identified inventories amounting to Rs.975.27 Lakhs as slow moving inventories and segregated it under the head "Other non current assets" in the Statement of Assets & Liabilities as at 31st March 2024.

Our Opinion is not modified in respect of the above matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	Auditor's Response
<p>The company has shown Trade Receivables-Unsecured, Considered good amounting to Rs.577.22 Lakhs as Other Non-Current Assets.</p> <p>See Note 4 of the standalone financial statements.</p>	<p>The procedures performed included the following among others:</p> <ul style="list-style-type: none"> • Understood the management processes, assumptions and controls with regard to testing, evaluating and identifying the Trade Receivables as Non-Current Assets. • Obtaining external confirmation as per SA 505. • Management has determined that there is no impairment loss which needs to be provided for. • Obtaining representation letter from the management on the assessment of these matters as per SA 580 (revised) – Written representations.

Information Other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and auditor's report(s) thereon.

Our opinion on the standalone financial statements does not cover the other information, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating

effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also: -

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015 as amended;
 - e) On the basis of the written representations received from the directors as on 31 March 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2024 from being appointed as a director in terms of Section 164(2) of the Act;
 - f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
 - g) On the basis of examination of the books of account and information and explanations given to us, the company has not paid any managerial remuneration during the period under review, therefore the provisions of section 197 read with Schedule V to the Act is not applicable to the company.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS Financial statements; refer Note 29 to the standalone Ind AS financial statements.
 - ii. The company did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended 31 March 2024.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether,

directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The Company has not declared/paid any dividend to the shareholders.
- vi. Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with.

“Annexure A” to the Independent Auditors’ Report

Referred to in paragraph 1 under the heading ‘Report on Other Legal & Regulatory Requirement’ of our report of even date to the financial statements of **M/s Rudra Ecovation Limited (Formerly Himachal Fibres Limited)** (“the Company”) for the year ended March 31, 2024:

- i) In respect of the Company’s Property, Plant and Equipment and Intangible Assets:
 - (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets;

(B) The Company has no intangible assets for the year ended March 31, 2024.
 - (b) The Property, Plant and Equipment have been physically verified by the management in a phased manner, designed to cover all the items over a period of three years, which in our opinion, is reasonable having regard to the size of the company and nature of its business. Pursuant to the program, a portion of the fixed asset has been physically verified by the management during the year and no material discrepancies between the books records and the physical fixed assets have been noticed.
 - (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of all the immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in the financial statements are held in the name of the company.
 - (d) The Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.
 - (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2024 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii) (a) The management has conducted the physical verification of inventory at reasonable intervals and in our opinion, the coverage and procedure of such verification by the management is appropriate. The discrepancies noticed on physical verification of the inventory as compared to books records which has been properly dealt with in the books of account were not material.

b) According to the information and explanation given to us and on the basis of our examination of the records, the company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks/financial on the basis of the security of current assets. The company is not availing any working capital limits from any Bank/Financial Institutions. Therefore, reporting under clause 3(ii)(b) of the Order is not applicable.
- iii) The Company has not made any investments in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured to companies, firms, Limited Liability partnerships or other parties.
- iv) In our opinion and according to the information and explanations given to us, the provisions of sections 185 and 186 of the Companies Act in respect of loans to directors including entities in which they are interested and in respect of loans and advances given, investments made, guarantees, and securities given have been complied with by the company.
- v) The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order is not applicable.
- vi) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government, the maintenance of cost records has been prescribed under sub-section (1) of Section 148 of the Companies Act and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have however not made a detailed examination of the records with a view to determining whether they are accurate or not.

- vii) (a) In our opinion, the Company has not been regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues in arrears as at March 31, 2024 for a period of more than six months from the date they became payable except following:-

S. No.	Statute	Nature	Amount in Lakhs
1	Himachal Pradesh Sales Tax Act	Works Contract Tax Payable	1.36
2	Employee's State Insurance Act, 1948	E.S.I. Payable	10.52
3	Finance Act, 2005	Service Tax Payable	0.04

- b) In our opinion and according to the information and explanations given to us, the Company has no statutory dues referred to in sub-clause (a) above which is pending for deposit as on March 31, 2024 on account of dispute.
- viii) There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not defaulted in repayment of loans and borrowing or in the payment of interest thereon to any lender during the year under review.
- (b) In our opinion and according to the information and explanations given to us, the Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
- (c) According to the information and explanations given to us by the management, the Company has not obtained any term loans during the year. Accordingly, clause 3(ix)(c) of the Order is not applicable
- (d) The Company has not raised any fresh short term loan during the year. Therefore, the provisions of clause 3 (ix) (d) of the Order could not be commented upon.
- (e) The company has no subsidiaries, associates or joint ventures. Accordingly, the provisions of clause 3 (ix) (e) of the Order are not applicable to the Company and hence not commented upon.
- (f) The company has no subsidiaries, associates or joint ventures. Accordingly, the provisions of clause 3 (ix) (f) of the Order are not applicable to the Company and hence not commented upon.
- x) (a) Based upon the audit procedures performed and the information and explanations given by the management, the company has not raised moneys by way of initial public offer or further public offer(including debt instruments) during the year under review. Accordingly, the provisions of clause 3 (x) (a) of the Order are not applicable to the Company and hence not commented upon.
- (b) Based upon the audit procedures performed and the information and explanations given by the management, the company have issued and allotted 1,50,00,000 convertible warrants at a price of Rs.10/- per warrant to the non-promoters on preferential basis with a right to the warrant holders to apply for and be allotted 1 fully paid up equity share of the company of face value of Rs. 1/- each at a premium of Rs. 9/- per share for each warrant with in a period of 18 months from the date of allotment of warrants. Monies received against the above mentioned share warrants have been applied for the purposes for which it has been received.
- xi) (a) Based upon the audit procedures performed and the information and explanations given by the management, we report that no fraud by the Company or on the company has been noticed or reported during the year.

- (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) We have taken into consideration the whistle blower complaints received by the Company during the year (and upto the date of this report), while determining the nature, timing and extent of our audit procedures.
- xii) Since the Company is not a Nidhi Company, therefore, the provisions of clause (xii) (a), (xii) (b) and (xii) (c), of the Order are not applicable to the Company.
- xiii) In our opinion, all transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 and the details have been disclosed in the Financial Statements as required by the applicable accounting standards.
- xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.

**“Annexure B” to the Independent Auditor’s Report of even date on the Standalone Financial Statements of
M/s Rudra Ecovation Limited (Formerly Himachal Fibres Limited).**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act,
2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of M/s Himachal Fibres Limited (“the Company”) as of March 31, 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company’s internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future

periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**Rudra Ecovation Limited
(Formerly Himachal Fibres Limited)****Notes to financial statements for the year ended 31st March 2024****1. Corporate Information**

Rudra Ecovation Limited (Formerly Himachal Fibres Limited) (hereinafter referred to as "the Company") is a Company incorporated and domiciled in India with its registered office is at Plot No. 43-44, Industrial Area, Barotiwala, District Solan, Himachal Pradesh. Corporate identification number of the company is L17119HP1980PLC031020 and the company is engaged in the business of manufacturing and sale of cotton polyester yarn and knitted clothes.

2. Significant accounting policies

The Company has consistently applied the following accounting policies to all periods presented in the financial statements.

(a) Basis of preparation and presentation

The financial statements of the Company comply in all material aspects with Indian Accounting Standards ("Ind AS") including the rules notified under the Companies Act, 2013 amended from time to time.

The financial statements were authorized for issue by the Company's Board of Directors on 25th May, 2024.

(b) Basis of measurement

The financial statements have been prepared under the historical cost convention on accrual basis except for the following items:

- Certain financial assets and liabilities (including derivative instruments) that is measured at fair value.
- Defined benefit liability/(assets): present value of defined benefit obligation less fair value of plan assets. Or Employee's Defined Benefit Plan as per actuarial valuation.

(c) Functional and Presentation Currency

The financial statements are presented in Indian Rupees, which is also the Company's the functional currency.

(d) Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires the management to make estimates and judgment that affect the reported amounts of assets, liabilities, income, expenses and other comprehensive income (OCI) that are reported and disclosed in the financial statements and accompanying notes. These estimates and judgment are based on the management's best knowledge of current events, historical experience, actions that the Company may undertake in the future and on various other estimates and judgments that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

The area involving significant estimates and judgments are:

- Recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used
- Measurement of defined benefit obligations: key actuarial assumptions
- Estimation of useful lives of property, plant and equipment and intangible assets
- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources

(e) Current / non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- It is expected to be realized in, or is intended for sale or consumption in the company's normal operating cycle;
- It is held primarily for the purpose of being traded;
- It is expected to be realized within 12 months after the reporting date; or
- It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A Liability is classified as current when it satisfies any of the following criteria:

- It is expected to be settled in the company's normal operating cycle;
- It is held primarily for the purpose of being traded;
- It is due to be settled within 12 months after the reporting date; or
- The company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

(f) Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located and condition necessary for it to be capable of operating in.

An item of property, plant and equipment and any significant part initially recognized the manner intended by management.. The Company identifies and determines separate useful lives for each major component of the property, plant and equipment, if they have a useful life that is materially different from that of the asset as a whole.is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is de-recognized.

Property, plant and equipment under construction and cost of assets not ready for use at the year-end are disclosed as capital work- in- progress.

Subsequent expenditure

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard or period of performance. All other expenses on existing property, plant and equipment, including day-today repairs, maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

Depreciation

Depreciation on property, plant and equipment has been provided on Straight line method in the manner and over the useful life of the assets prescribed under Part 'C' of Schedule II to the Companies Act, 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

(g) Impairment

Impairment of financial assets

The Company recognizes loss allowance for expected credit losses on financial assets measured at amortized cost. At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit

impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default in payment within the due date;
- the restructuring of a loan or advance by the entity on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganization; or

The Company measures loss allowances at an amount equal to lifetime expected credit losses. Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information. The Company considers a financial asset to be in default when the debtor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any) is held.

Measurement of expected credit losses

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Impairment of non-financial assets

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value on an appropriate discount factor.

(h) Inventories

The cost of inventories comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. The cost in respect of different classifications of inventories is computed as under:

- in case of raw material, stores and spares, diesel and packing material at first-in-first-out (FIFO) cost method plus direct expenses.
- in case of work-in-progress at raw material cost (determined on FIFO cost method) plus appropriate portion of conversion cost and other overheads incurred depending upon the stage of completion.

- in case of finished goods at raw material cost (determined on FIFO cost method) plus conversion cost, packing cost and other overheads incurred to bring the goods up to their present location and condition.
- Saleable waste/ Scrap has been valued at estimated net realizable value.
- Goods/ material in transit are valued at realizable value to date.

(i) Foreign currency transactions

Transactions in foreign currencies are recorded by the Company entities at their respective functional currency at the exchange rates prevailing at the date of the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currency are translated to the functional currency at the exchange rates prevailing at the reporting date

Exchange differences arising on settlement or translation of monetary items are recognized in the statement of Profit and Loss

(j) Employee benefits

– **Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid e.g., under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

– **Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in Statement of Profit and Loss in the periods during which the related services are rendered by employees.

– **Defined benefit plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed quarterly/annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognized in OCI. The Company determines the net interest expense (income) on the net defined benefit liability or the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognized immediately in Statement of Profit and Loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(k) Revenue recognition

– **Revenue from Sale of goods**

– Revenue is measured at the fair value of the consideration received or receivable. Sales are recognized when the significant risks and rewards of ownership which coincide with transfer of controls of goods, are

transferred to the buyer as per terms of contract and are recognized. Amounts disclosed as revenue is net of returns, trade discounts, Good and Service Tax (GST) and amount collected on behalf of third parties.

- The company recognizes revenue when the amount of revenue can be measured reliably and it is probable that the economic benefit associated with the transaction will flow to the company.
- **Revenue from other than sale of goods**
- Revenue (other than sale) is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Export incentives and subsidies are recognized when there is reasonable assurance that the Company will comply with the conditions and the incentive will be received.
- Interest income is recognized on a time proportion basis taking into account the amount outstanding and the interest rate applicable.
- Insurance claims are accounted for on an accrual basis, to the extent these are measurable and ultimate collection is reasonably certain.

(l) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in Statement of Profit and Loss over the period of the borrowings using the effective interest method (EIR). Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

(m) Borrowing costs

Borrowing cost are interest and other costs incurred in connection with borrowing of funds. Borrowing costs directly attributable to acquisition or construction of qualifying assets are capitalized as part of the cost of such assets to the extent that they relate to the period till such assets are ready to be put to use. Qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are recognized as expense in the period in which they are incurred.

(n) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right of use assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Particulars	Lease Term
Leasehold Land	99 Years

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

ii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases except in case of lease contracts with related parties since there exist economic incentive for the Company to continue using the leased premises for a period longer than the 11 months and considering the contract is with the related parties, it does not foresee non-renewal of the lease term for future periods, thus basis the substance and economics of the arrangements, management believes that under Ind AS 116, the lease terms in the arrangements with related parties have been determined considering the period for which management has an economic incentive to use

the leased asset (i.e. reasonable certain to use the asset for the said period of economic incentive). Such assessment of incremental period is based on management assessment of various factors including the remaining useful life of the asset as on the date of transition. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

(o) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts.

i. Financial Assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Classifications

The company classifies its financial assets as subsequently measured at either amortized cost or fair value depending on the company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Business model assessment

The company makes an assessment of the objective of a business model in which an asset is held at an instrument level because this best reflects the way the business is managed and information is provided to management.

Debt instruments at amortized cost

A financial asset is measured at amortized cost only if both of the following conditions are met:

- it is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate ('EIR') method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss.

Debt instrument at fair value through Other Comprehensive Income (FVOCI)

Debt instruments with contractual cash flow characteristics that are solely payments of principal and interest and held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets are classified to be measured at FVOCI.

Debt instrument at fair value through profit and loss (FVTPL)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL.

In addition, the company may elect to classify a debt instrument, which otherwise meets amortized cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

ii. Equity Instruments

All equity instruments in scope of Ind AS 109 are measured at fair value. On initial recognition an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

All other Financial Instruments are classified as measured at FVTPL.

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily de-recognized (i.e. removed from the company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognize the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

On de-recognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognized) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognized in OCI is recognized in profit or loss.

Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

With regard to trade receivable, the Company applies the simplified approach as permitted by Ind AS 109, Financial Instruments, which requires expected lifetime losses to be recognized from the initial recognition of the trade receivables.

iii. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, amortized cost, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of amortized cost, net of directly attributable transaction costs.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial Liabilities measured at amortized cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are de-recognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss.

Derivative financial instruments

Foreign exchange forward contracts are purchased to mitigate the risk of changes in foreign exchange rates associated with forecast transactions denominated in certain foreign currencies. The Company recognizes all derivatives as assets or liabilities measured at their fair value. The changes by marked to market then at each reporting date and the related gains (losses) are recognized in the Statement of Profit and Loss.

De-recognition of financial liabilities

The company de-recognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

(p) Measurement of fair values

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

(q) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less. For the purposes of the Cash Flow Statement, cash and cash equivalents is as defined above, net of outstanding bank overdrafts. In the balance sheet, bank overdrafts are shown within borrowings in current liabilities

(r) Earning per share

Basic earning per share (EPS) are calculated by dividing the net profit or loss after tax for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share (EPS), the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

(s) Provisions and contingent liabilities

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future obligation at pre-tax rate that reflects current market assessments of the time value of money risks specific to liability. They are not discounted where they are assessed as current in nature. Provisions are not made for future operating losses.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or reliable estimate of the amount cannot be made. Contingent assets are disclosed in the financial statements.

(t) Taxation

Income tax comprises current and deferred tax. It is recognized in Statement of Profit and Loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets - unrecognized or recognized, are reviewed at each reporting date and are recognized/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

**Rudra Ecovation Limited
(Formerly Himachal Fibres Limited)****Notes to financial statements for the year ended 31st March 2024****1. Corporate Information**

Rudra Ecovation Limited (Formerly Himachal Fibres Limited) (hereinafter referred to as "the Company") is a Company incorporated and domiciled in India with its registered office is at Plot No. 43-44, Industrial Area, Barotiwala, District Solan, Himachal Pradesh. Corporate identification number of the company is L17119HP1980PLC031020 and the company is engaged in the business of manufacturing and sale of cotton polyester yarn and knitted clothes.

2. Significant accounting policies

The Company has consistently applied the following accounting policies to all periods presented in the financial statements.

(a) Basis of preparation and presentation

The financial statements of the Company comply in all material aspects with Indian Accounting Standards ("Ind AS") including the rules notified under the Companies Act, 2013 amended from time to time.

The financial statements were authorized for issue by the Company's Board of Directors on 25th May, 2024.

b) Basis of measurement

The financial statements have been prepared under the historical cost convention on accrual basis except for the following items:

- Certain financial assets and liabilities (including derivative instruments) that is measured at fair value.
- Defined benefit liability/(assets): present value of defined benefit obligation less fair value of plan assets. Or Employee's Defined Benefit Plan as per actuarial valuation.

c) Functional and Presentation Currency

The financial statements are presented in Indian Rupees, which is also the Company's the functional currency.

d) Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires the management to make estimates and judgment that affect the reported amounts of assets, liabilities, income, expenses and other comprehensive income (OCI) that are reported and disclosed in the financial statements and accompanying notes. These estimates and judgment are based on the management's best knowledge of current events, historical experience, actions that the Company may undertake in the future and on various other estimates and judgments that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

The area involving significant estimates and judgments are:

- Recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used
- Measurement of defined benefit obligations: key actuarial assumptions
- Estimation of useful lives of property, plant and equipment and intangible assets
- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources

e) Current / non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- It is expected to be realized in, or is intended for sale or consumption in the company's normal operating cycle;
- It is held primarily for the purpose of being traded;
- It is expected to be realized within 12 months after the reporting date; or
- It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A Liability is classified as current when it satisfies any of the following criteria:

- It is expected to be settled in the company's normal operating cycle;
- It is held primarily for the purpose of being traded;
- It is due to be settled within 12 months after the reporting date; or
- The company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

f) Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and accumulated impairment losses, if any. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located and condition necessary for it to be capable of operating in.

An item of property, plant and equipment and any significant part initially recognized the manner intended by management.. The Company identifies and determines separate useful lives for each major component of the property, plant and equipment, if they have a useful life that is materially different from that of the asset as a whole.is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is de-recognized.

Property, plant and equipment under construction and cost of assets not ready for use at the year-end are disclosed as capital work- in- progress.

Subsequent expenditure

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard or period of performance. All other expenses on existing property, plant and equipment, including day-today repairs, maintenance expenditure and cost of replacing parts, are charged to the Statement of Profit and Loss for the period during which such expenses are incurred.

Depreciation

Depreciation on property, plant and equipment has been provided on Straight line method in the manner and over the useful life of the assets prescribed under Part 'C' of Schedule II to the Companies Act, 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

g) Impairment

Impairment of financial assets

The Company recognizes loss allowance for expected credit losses on financial assets measured at amortized cost. At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit

impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default in payment within the due date;
- the restructuring of a loan or advance by the entity on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganization; or

The Company measures loss allowances at an amount equal to lifetime expected credit losses. Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information. The Company considers a financial asset to be in default when the debtor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any) is held.

Measurement of expected credit losses

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Impairment of non-financial assets

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value on an appropriate discount factor.

h) Inventories

The cost of inventories comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. The cost in respect of different classifications of inventories is computed as under:

- in case of raw material, stores and spares, diesel and packing material at first-in-first-out (FIFO) cost method plus direct expenses.
- in case of work-in-progress at raw material cost (determined on FIFO cost method) plus appropriate portion of conversion cost and other overheads incurred depending upon the stage of completion.
- in case of finished goods at raw material cost (determined on FIFO cost method) plus conversion cost, packing cost and other overheads incurred to bring the goods up to their present location and condition.

- Saleable waste/ Scrap has been valued at estimated net realizable value.
- Goods/ material in transit are valued at realizable value to date.

i) Foreign currency transactions

Transactions in foreign currencies are recorded by the Company entities at their respective functional currency at the exchange rates prevailing at the date of the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currency are translated to the functional currency at the exchange rates prevailing at the reporting date

Exchange differences arising on settlement or translation of monetary items are recognized in the statement of Profit and Loss

j) Employee benefits

- **Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid e.g., under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

- **Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in Statement of Profit and Loss in the periods during which the related services are rendered by employees.

- **Defined benefit plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed quarterly/annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Re-measurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognized in OCI. The Company determines the net interest expense (income) on the net defined benefit liability or the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognized immediately in Statement of Profit and Loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

k) Revenue recognition

- **Revenue from Sale of goods**

- Revenue is measured at the fair value of the consideration received or receivable. Sales are recognized when the significant risks and rewards of ownership which coincide with transfer of controls of goods, are transferred to the buyer as per terms of contract and are recognized. Amounts disclosed as revenue is net of returns, trade discounts, Good and Service Tax (GST) and amount collected on behalf of third parties.

- The company recognizes revenue when the amount of revenue can be measured reliably and it is probable that the economic benefit associated with the transaction will flow to the company.
- **Revenue from other than sale of goods**
- Revenue (other than sale) is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Export incentives and subsidies are recognized when there is reasonable assurance that the Company will comply with the conditions and the incentive will be received.
- Interest income is recognized on a time proportion basis taking into account the amount outstanding and the interest rate applicable.
- Insurance claims are accounted for on an accrual basis, to the extent these are measurable and ultimate collection is reasonably certain.

i) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in Statement of Profit and Loss over the period of the borrowings using the effective interest method (EIR). Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

m) Borrowing costs

Borrowing cost are interest and other costs incurred in connection with borrowing of funds. Borrowing costs directly attributable to acquisition or construction of qualifying assets are capitalized as part of the cost of such assets to the extent that they relate to the period till such assets are ready to be put to use. Qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are recognized as expense in the period in which they are incurred.

n) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right of use assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Particulars	Lease Term
Leasehold Land	99 Years

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

ii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases except in case of lease contracts with related parties since there exist economic incentive for the Company to continue using the leased premises for a period longer than the 11 months and considering the contract is with the related parties, it does not foresee non-renewal of the lease term for future periods, thus basis the substance and economics of the arrangements, management believes that under Ind AS 116, the lease terms in the arrangements with related parties have been determined considering the period for which management has an economic incentive to use

the leased asset (i.e. reasonable certain to use the asset for the said period of economic incentive). Such assessment of incremental period is based on management assessment of various factors including the remaining useful life of the asset as on the date of transition. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

o) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts.

i. Financial Assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Classifications

The company classifies its financial assets as subsequently measured at either amortized cost or fair value depending on the company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

Business model assessment

The company makes an assessment of the objective of a business model in which an asset is held at an instrument level because this best reflects the way the business is managed and information is provided to management.

Debt instruments at amortized cost

A financial asset is measured at amortized cost only if both of the following conditions are met:

- it is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate ('EIR') method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss.

Debt instrument at fair value through Other Comprehensive Income (FVOCI)

Debt instruments with contractual cash flow characteristics that are solely payments of principal and interest and held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets are classified to be measured at FVOCI.

Debt instrument at fair value through profit and loss (FVTPL)

Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified as at FVTPL.

In addition, the company may elect to classify a debt instrument, which otherwise meets amortized cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

ii. Equity Instruments

All equity instruments in scope of Ind AS 109 are measured at fair value. On initial recognition an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

All other Financial Instruments are classified as measured at FVTPL.

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily de-recognized (i.e. removed from the company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognize the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

On de-recognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognized) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognized in OCI is recognized in profit or loss.

Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

With regard to trade receivable, the Company applies the simplified approach as permitted by Ind AS 109, Financial Instruments, which requires expected lifetime losses to be recognized from the initial recognition of the trade receivables.

iii. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, amortized cost, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of amortized cost, net of directly attributable transaction costs.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial Liabilities measured at amortized cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are de-recognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss.

Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit or loss.

Derivative financial instruments

Foreign exchange forward contracts are purchased to mitigate the risk of changes in foreign exchange rates associated with forecast transactions denominated in certain foreign currencies. The Company recognizes all derivatives as assets or liabilities measured at their fair value. The changes by marked to market then at each reporting date and the related gains (losses) are recognized in the Statement of Profit and Loss.

De-recognition of financial liabilities

The company de-recognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

p) Measurement of fair values

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. All methods of assessing fair value result in general approximation of value, and such value may never actually be realized.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

q) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less. For the purposes of the Cash Flow Statement, cash and cash equivalents is as defined above, net of outstanding bank overdrafts. In the balance sheet, bank overdrafts are shown within borrowings in current liabilities

r) Earning per share

Basic earning per share (EPS) are calculated by dividing the net profit or loss after tax for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share (EPS), the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

s) Provisions and contingent liabilities

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future obligation at pre-tax rate that reflects current market assessments of the time value of money risks specific to liability. They are not discounted where they are assessed as current in nature. Provisions are not made for future operating losses.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or reliable estimate of the amount cannot be made. Contingent assets are disclosed in the financial statements.

t) Taxation

Income tax comprises current and deferred tax. It is recognized in Statement of Profit and Loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets - unrecognized or recognized, are reviewed at each reporting date and are recognized/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.
